ISRAEL HOLDER PASSED AWAY

Native of Hancock County Had
Lived Here Forty Years.
63 Years Old.

Mr. Israel Holder, who had been in ill health for the last few years, died Wednesday evening at 8 o'clock at the home of his brother-in-law, Mr. Kenton Pate, and Mrs. Pate, in the West End. Death was due to complications.

The funeral was held at the grave in the Cloverport cemetery, Thursday afternoon at 2:30 o'clock. Services conducted by Rev. E. C. Nall, and the remains were interred beside those of his wife and daughter, the former having died a little over a year ago.

Mr. Holder was 63 years old. Born in Hancock county, and came to Cloverport to reside forty years ago. He was the son of James Holder. He is survived by a brother, James Holder, of Midway, Ky.

FIRST DEED RECORDED IN COUNTY IN 1802.

The first deed ever recorded in the County Clerk's office of Breckinridge County, was in 1802, one hundred and eighteen years ago. The deed was for two town lots in Hardinsburg to Wm. Hardin and Balser Claycomb, consideration 23 pounds current money, and was written with a quill pen.

MRS. HERNDON'S FUNERAL CONDUCTED BY REV. P. H. RYAN, OF LOUISVILLE.

Irvington, Aug. 16. (Special)—The funeral of Mrs. J. M. Herndon was held at the Methodist church on Thursday afternoon at 2 o'clock. Rev. P. H. Ryan, of Louisville, who held the memorial service for Mrs. Herndon's son, Lewis Herndon, who was killed in France, conducted the service. Rev. Ryan was assisted by Rev. C. F. Hartford. A host of relatives and friends were in attendance, and numerous floral designs were sent. The burial took place on the Cedar Hill cemetery.

OLDEST BUSINESS CONCERN CLOSED

A. R. Fisher's Drug Store Passes
Into History. Established
Over 60 Years Ago. Stock
Sold Locally.

Closing out the stock of drugs in A. R. Fisher's Drug Store removes one of the oldest business concerns in Cloverport. The stock is being disposed of this week to two of the local druggists, E. M. Wedding of Wedding's Drug Store, and R. L. Oelze. The brick building that the store occupied has been retained by Mr. Fisher's widow.

The firm of Fisher's Drug Store is over sixty years old. The late A. R. Fisher established the business some sixty years ago, and his first store was a frame building on the same corner of the one today. In 1880, Mr. Fisher built a fine brick building to replace the frame dwelling, and it was burned in the big fire March 13, 1901. To replace that, the present brick building was built.

Previous to Mr. Fisher entering the drug business, the late Mr. John Raitt, owned a drug store on the same corner, which he sold to Mr. Fisher. So there has been a drug store on this one corner in Cloverport for nearly a century making it a historic landmark of the town.

SKILLMAN AND JARBOE HAVE RENTED THEIR FARMS IN SKILLMAN.

Mr. A. B. Skillman and Mr. J. C. Jarboe, who thirty-five years ago formed what has been a most successful partnership in the farming and stock business, have entered upon a plan or renting both their farms for the coming year.

Messrs Skillman and Jarboe own several hundred acres of very fine river bottom land in Skillman, and Mr. Jarboe has been overseer for both farms. Next year, Clark Brothers will crop on the Jarboe farm and Mr. Frank Tomer and son, Logan and son-in-law, Estill Burnett, on the Skillman farm. Messrs Skillman and Jarboe will retain their partnership.

FOUR PER CENT ON SAVINGS AND TIME DEPOSITS

EVER since its establishment, thirty years ago, The Bank of Hardinsburg and Trust Company has consistently adhered to the principle of always paying as substantial a rate of interest on its depositors, funds as is justified by the prevailing earning power of money, by judicious conservatism and by due consideration for possible future economic conditions.

Money now yields a higher average return than ever before on the same high character of conservative investments which we have always selected for our funds, and The Bank of Hardinsburg and Trust Company -- the oldest and largest Trust Company in Breckinridge County, is therefore able to give its depositors the benefit of a corresponding increase on their savings, and this bank has increased its interest rate to 4 per cent on savings and also on Certificates of deposit.

We cordially invite your patronage, offering friendly interested service.

What should a retail store be?

When you get down to cases, a retail store is really a public service institution. We look at it that way. You need clothes; at least the police feel that way; they won't let you get very far without them.

So it's our duty to provide clothes; the better we do this

—the more we help the public; the more they come to us and support us.

You expect us to get a fair profit for doing this. We've been getting that—only a fair profit; nothing more. But we're willing to take less than that if we can help people meet this "high cost" problem.

And here's an example of what we mean

Hart, Schaffner & Marx suits specially priced

They'd cost more at wholesale today, than at the prices we have them marked. We're not thinking of that; we're thinking of how little we can sell these goods for

RECIPE FOR MAKING GRAPE JUICE.

Gather the grapes when fully ripe, pick from the stem and wash thoroughly, then add one quart of water to each quart of grapes, and cook slowly for two hours, or until they are all mashed, which can be helped along by using a spoon to jam them up. Use a cheesecloth bag of two thicknesses to drain them through, then add a cup of sugar to each quart of juice. Boil five minutes and bottle immediately, putting in a stopper and covering with sealing wax. If you do not sweeten, put up just the same way. It is equally as good as sweetened as then you can add sugar to taste.

MILLIONAIRES IN U. S. NUMBER 20,000

Report That 50,000 Persons Might Also Be Termed in That Class.

Washington, D. C., Aug. 12.—Federal income tax returns show that there are approximately 50,000 persons in the United States who might be classified as members of the "millionaire group" and that there are at least 20,000 millionaires now in the United States.

Included in the 50,000 total would be the members of families of the 20,000 persons who in their return

confessed to an annual income of at least \$50,000 in 1919. This is the lowest probable return on \$1,000,000. In this group might be included some high-salaried executives, but their number would not be great.

War profits made many millionaires in this country; the number in 1918 being 16,900. This year returns showing incomes of \$50,000 to \$750,000 were filed by 15,917 heads of families and ninety-reported incomes ranging from \$750,000 to \$1,930,000.

TWO CHILDREN LEFT ALONE IN HOUSE AND BURNED TO DEATH.

Butler, Ky., Aug. 13.—Two children were burned to death and a third probably fatally burned when a can of coal oil exploded yesterday in the home of Mr. and Mrs. Joseph Payne. James Payne, a brother, also was severely burned in trying to rescue the children and the house was destroyed.

Th Payne's had left the house and two babies in the care of their eleven-year-old daughter. She attempted to start a fire in the kitchen stove with coal oil. It is thought smoldering embers ignited the fluid prematurely, exploding the can, the flaming oil being thrown on the girl, her four-year-old brother and thirteen-month-old baby.

Their uncle ran into the house in time to save the boy, but the other two were dead when he arrived.

CONVENTION OF KY. SUNDAY SCHOOL ASSN TO BE HELD IN LOUISVILLE.

The Kentucky Sunday-school Association will hold its annual convention this year in Louisville on October 5, to 7. The meetings will be held in the Highland Presbyterian church.

Rev. Dr. Geo. A. Joplin, general secretary of the Association, believes that the indications are pointing toward this convention being the greatest in the fifty years of the Association's existence.

GREEK PEDDLER RICH

Twelve Years in America Allows Him to Build Up a Fortune of \$100,000.

Down in Atlanta, Ga., the newspapers have given considerable space to the experience of Aristides Soumpos, a Greek, who came to America only a little more than 12 years ago, practically without a cent.

Recently Aristides sailed for his native land, taking with him \$100,000, most of which had been invested in the securities issued by the U. S. Government.

Aristides' success is cited as an example of what Thrift can accomplish. He peddled fruit, "hot dogs," set up an ice cream business, saved regularly, and when the Government offered Liberty Bonds, War Savings Stamps and Treasury Savings Certificates he became a regular purchaser of these incomparable securities.

MISS BASHAM GIVEN A SURPRISE PARTY IN ILL. FORTY-TWO PRESENT.

Humboldt, Ill., Aug. 13. CONSULTING THE STARS

Astrology has hit Washington. It seems that a lady astrologer, named Marcia, claims to have told Mrs. Gault, long before that lady became Mrs. Wilson, that she would one day sit at the head of the White House table. It is also whispered that the wife of a Senator now in the public eye visited the same student of the stars and human destiny, and came away highly gratified.

What could be more convincing? The human race does not need to be convinced that there are "instances in the occult." Tucked away in the memories of most people are instances of strange predictions that came true. They have forgotten a host of other prophecies which failed.

The "African golf" expert may be cleaned out in his favorite sport regularly each Sabbath day, but his superstitions will be with him as long as his breath. Some people will not begin anything on a Friday, and others always look at the bottom of a cup which contained tea in order to see, by the arrangement of the tea leaves, what is coming to pass.

The coldly logical are impatient with such nonsense and insist that it is a relic of the ages of darkness. So it is, but that is not a good reason for impatience. We, all of us, are descendants of countless generations of pagans from whom we inherit. A few generations back the worthless on both sides of the house were cringing believers in signs and portents, afraid of their own shadows and dependent on oracles and on the custodians of oracles.

The logical qualities generally credited with being inseparable from every human mind are really very recent acquisitions.

Fortune tellers may be troubled from time to time by the authorities in the localities where they ply their trade, but their game will last a long while yet, because the veneer on paganism is very thin.—Boston Globe.

EATING ICE CREAM

So many people are poisoned in the summer time from eating ice cream. Then we are made to wonder if it is the condition of the system of the one who eats the ice cream or it is in the cream. We imagine both have a good deal to do with it sometimes.

Just at this time, the State Board of Health of Kentucky calls our attention to facts about ice cream that is made out of the boundaries of our State.

Did you know that the standard for making ice cream in Kentucky is higher than it is in Illinois, Indiana, Missouri, Tennessee, West Virginia or Ohio (Cincinnati)? The percentage of butter fat in plain cream made in this State has to be 10 per cent, and in fruited creams 8 per cent. While in these other states mentioned the required percentage of butter fat in plain and fruited creams is 5 per cent for both. And ice cream is shipped in to Kentucky from these States all the time. However our State Board of Health requires that ice cream shipped to his State must be made according to its standard.

But how is a body to know when they eat ice cream at the soda fountains, public picnics, etc., whether it contains 10 per cent, or even 6 per cent, butter fat? Perhaps the best way to do, if you would be entirely on the safe side, is decline eating ice cream at places where you are doubtful, and make your own frozen cream at home where you know what's in it.

There were a lot of farmers trading in Cloverport, Saturday and it was good to see them here. The large number of automobiles and horses and buggies that were lined up along the streets was only a suggestion of the number that we hope to see when the Federal highway is opened up.

With publishers paying 15 cents a pound for newsprint paper that we use to buy for 3 cents a pound, to say nothing of the increased cost of labor, and the hundred and one other things that it takes to print a newspaper, it is not surprising that 2,500 papers have had to suspend lately.

Mayor Barry has ordered a vigorous cleaning up week of August 23. Bear in mind the date.

Do you hear much political talk among the women of your community?

Value of Improved Blood

By H. C. LOOKABUGH In The Sherman World

It is wonderful to note what rapid progress Oklahoma has made in advancing interest in improved live stock since A. J. Whitehurst has been president of the board of agriculture. Few men have realized the importance of that position to agricultural interests though many recognize the importance of agriculture.

In order to nationalize the use of improved blood in live stock, something that should have been done years and years ago, we have only a few agencies to set going and the work is completed.

The metropolitan magazines are a great factor in our land and the way they take hold of the right kind of live stock stories is very interesting indeed. They now realize that improved blood in live stock is not a fancy but a necessity and I am sure they will lend their support to the cause in helping to teach the man who does not live on the farm that the use of improved blood in live stock is just as essential and means far more to the common health than the improved methods of traveling, talking, writing and various other advancements. The average business man is the best booster when he once sees how much it means to the average farmer, and realizes that fine stock is not simply something to look at, but that it is more essential than the automobile.

Live stock simply furnishes a market for the by-products of the farm, and since good live stock eats no more than poor, the better the live stock the higher priced market for the by-products. The sum and total of the production of the farm in one year when you add the produce of the good stock that a man can keep on the average farm makes the farmer's annual income nearly treble what it used to be because it helps the farmer utilize all that he produces to the best possible advantage and gives him the opportunity of employment on the farm the year round.

The wheat pastures that used to go to waste are utilized to the very best advantage, for one acre of good wheat

will pasture one good Shorthorn through the winter. If the Shorthorn does not put on at least fifty pounds he is no good. Five months on the winter pasture mean 250 pounds of beef, worth at least 10 cents a pound or \$25, which is nearly the price of the grain from an acre of wheat. By the use of the straw in bad weather the by-products of the wheat are pretty well utilized. This is just one illustration of the numerous combined profits that can be realized from a farm when the proper kind of live stock is employed.

The farmer on high priced land has begun to realize that the day is past for scrub live stock and he is already interested. The great thing before us is to educate the town dweller to the use of the improved blood so that he does not throw cold water on the proposition. Men as a rule are fair; let them be shown the necessity of a thing and they are for it. The bankers all over the country are lending their financial support and already have seen the good results from this work. They needed no more than a tip to see the benefit it would bring to their communities. Through the cow and calf club work and the purebred sire campaign, which is being inaugurated by the government all over the land, they are reaching through the boys, many a father and mother that never had before been interested in any advancement on the farm. There is another class of citizens that has been doing a great deal of good in the past few years the traveling man and the hotel man. They have learned the value of good live stock very fast.

The State Board of Agriculture has been the means of bringing about a great deal of this education. The last report is a magnificent piece of work and should be read by every citizen in the state. While it does not deal very extensively with the value of production from live stock it does cover it as a whole in giving the amount of the agricultural products of the state and I know that it will mean much to the average citizen.

FORMER RESIDENTS OF BRECKENRIDGE CELEBRATE GOLDEN WEDDING.

Mr. and Mrs. Wm. Sipes, of near Lewisport, celebrated their golden wedding anniversary, Aug. 11. Mrs. Sipes was formerly Miss Frances Stin-

nett, daughter, of Mr. and Mrs. Wyatt Stinnett, of Breckinridge county. Mr. and Mrs. Sipes at one time resided in this county.

Among those who attended the celebration were: R. L. Stinnett and family, Mr. and Mrs. Willie Stinnett, and James Geer, of Hrdinsburg.

DEANFIELD'S MIGHTY SWATTERS AGAINST McQUADY

The baseball enthusiasts of the central part of Breckinridge county gathered to see their favorite sons engage in America's great sport and needless to say they were treated to a splendid exhibition. James Tierney came over with his team to show us the real game and we were not disappointed for at many stages of the game there were reasons to feel that his gang were on the path to win. But there was another gallant leader with his supporters who broke down the power of Deanfield's onslaught and blocked the home plate where only victory can be found. When the final out was called the score stood 6 to 1 in favor of McQuady. O. Barlow the pitcher for Deanfield deserves special notice for his clever work both on the field and at the bat. On McQuady's side the heavy hitters of Bahe Ruth's type of batting were Maurice Miller and Harry Jolly; their slugging was opportune to the end of Deanfield's undoing. On the defensive for McQuady, mention must be given to the fast double accomplished by Kincheloe unassisted; likewise his clever pickup of a deceptive grounder in the deep field and his lightning throw to Miller who was fully extended to receive the ball at first. As Deanfield put it: "Such playing is hard to heat." So amid much cheering and rooting the game started off with Deanfield at the bat. The first inning looked like the weather, very threatening, and such slugging seemed a desperate blow in a quick getaway. Bowmer slapped out a double, Barlow swiftly singled and Tierney sacrificed, Bowmer being caught at the plate by Paul Mattingly's accurate and speedy throw. Griffith pounds out a single over short and two runs pass over the home base. Martin hits to short who started a snappy double getting Griffith at second and Martin at first. Three hits and two earned runs. In McQuady's half nothing was gained from Miller's double.

Second Inning.

Deanfield went out in turn after Miller was passed on four wide ones. McQuady set themselves to forge tread; Kincheloe singled; Crouch sacrificed and made first safely in slow fielding; pitcher Mattingly shot a swift hit to short which was so hot that it caromed off to one side; he recovered ball in time to nail Kincheloe at home on a mighty close decision. Gardner was hit on the arm and took first, filling the bases; here Percy Mattingly sent a baffling fly to the field before the sphere was returned three runs crossed the plate; Mattingly trying to stretch his drive for three bases was caught at third; another close decision; but umpire Jolly was right. Earl Jolly fanned and the side retired. Three runs from three hits and a dead ball. Score 3 to 2 favor McQuady.

Third Inning.

Side out in order except Barlow wedged in a single, his second of the game; going some. McQuady wanted a safer lead and started after it. Froggie drove one to second basemen of the sizzling type and another close decision at first netted an out; the umpire knew; Paul Mattingly drew a pass; Harry Jolly drives out a great three bagger, Mattingly scoring; Kincheloe strikes out and Crouch sacrifices. Jolly making home six inches ahead of the ball, even at that catcher Martin dropped the ball to avoid any questioning. Pitcher Mattingly strikes out. Two runs. Score 5 to 2 favor McQuady.

Deanfield lost a chance to score in the sixth when McQuady's defense weakened for a moment and two errors allowed a man to reach third and another second.

In the seventh Maurice Miller obtained first on an error; then stole second; Paul Mattingly sacrificed and was caught at first with Miller safely at third; Here comes Harry Jolly with a hit making his batting average for the game 750; Miller crosses the plate having furnished some fine exhibitions, in base running. Kincheloe drove a fly to center which was garnered by Lyons and Crouch follows with a single; while pitcher Mattingly was itching to drive the sphere out of the lot. Harry Jolly made the third out trying to steal third, catcher Martin and Barnett making the play. Side retired with one run more, the final one of the game score being 6 to 2 favor McQuady.

Deanfield made a desperate attempt to beat out some more runs in the ninth. E. Miller reached third and Barnett second; Mattingly turned himself loose to show the lads real pitching by striking out Haynes and handling Lyon's easy grounder over to first; thus ended a great game.

We want Deanfield to return to our own town again; we enjoyed their presence and promise them that we will try to win again. Thanks boys for coming.—Contributed.

TOMATOES RAISED AROUND CLOVERPORT SOLD TO HEINZ.

The Owensboro Products company last week placed 700 acres of tomatoes with the Heinz company, the acreage being in and around Hawesville and Cloverport. The representatives of the company arranged for the sale of the tomatoes at the agreed contract price, \$17 per ton. The consideration given the Products company was not made known, nor were the terms with Mr. Loving, representative of the canning company at Indianapolis, Evansville and Hartford. Mr. Loving will take the remaining 300 acres of tomatoes which are around Lewisport and in Daviess county. He will use the Products plant west of Owensboro in putting away the tomatoes and will make arrangements at once for delivery and cannaging of the tomatoes, it is said.—Owensboro Messenger.

FARM AND STOCK

Harry Norton shipped from Webster, Saturday two cars stock. One car had 24 head of cattle fed by Thomas Lyddan. They weighed 22,930 pounds and sold for 9 and ten cents. One load mixed sold at 6 to 10 cents. Mr. Norton said the market was strong and prices he thought, on good cattle would be higher.

The old distillery buildings at Addison are being torn down to give way for buildings for the use of employees of the dam. Things begin to look pretty lively around Addison.

Steve Haynes, Garfield, tells us that his brother H. H. Haynes, who was a Democratic candidate for County Commissioner in a recent primary in Texas won the nomination by a vote of two to one over his opponent.

J. M. Howard now has one of the best bulls at the head of his herd of Shorthorns in the county. He is a White Hall Sultan—his sire sold for \$14,000.

Harrington Brothers shipped a car load of hogs from here Monday night. They will arrive in time for Tuesday's sales. The railroad is giving the shippers of stock a very fine service from this town.

FARM BUREAU NEWS

Conducted by JOSEPH W. HARTH, County Agent

Farm Bureau Day at State Fair.

Friday, September 17, has been designated as Farm Bureau day. Every County Farm Bureau in the State is planning to send a large delegation to Louisville on that day, so as to help make Farm Bureau day, the largest in attendance of the whole fair. Other States have promised to send delegations and Mr. J. R. Howard, President of the American Farm Bureau Federation will also be in attendance that day. All Farm Bureau members in the State will welcome this opportunity to meet Mr. Howard.

Poultry Culling Demonstrations

Poultry Culling demonstrations will be held in the county this month as follows:

August 23, 2 p. m., McQuady.
August 24, 8 p. m., Kingswood.
August 24, 10 a. m., West View.
August 24, 2 p. m., McDaniel's.
August 25, Irvington.

The public is invited to attend.

Interest in Limestone

As the farmers are now having an opportunity to devote some time, outside of their crops, many of them are taking up the matter of securing limestone, to apply on wheat. There is great activity in this line at present.

Beard Bros., have purchased the interest of Mr. Frank Rupert and Harth Bros., in a large pulver, in order, that they may use the pulver all the time on their farms. Mr. Rupert is planning to purchase a pulver for his own use this fall. Harth Bros., will purchase another one with some of their neighbors, in their community. Mr. Vic Pile, Harned purchased a large pulver several months ago. Messrs. Coleman Payne, C. A. Butler, and others near Harned have also contracted for a pulver, which will be delivered in the near future. Many samples of limestone throughout the county are being brought to the County Agents office to be tested for their value for agricultural purposes.

Groups of farmers near the railroad are planning to purchase limestone from commercial plants. The County Agent will be glad to give any information regarding limestone or to assist in getting up car loads in any communities or to organize a group to purchase a pulver.

Convincing Limestone Demonstration

Mr. Tom Beard has on his farm near Hardinsburg a field that was

Mr. Taylor Beard is making a fine lot of cider. She gave us a small portion and it was fine. Says she is going to put it into vinegar. The simon pure stuff.

lined last fall. With the exception of a few acres in the center of the field, this was caused from the fact that the line gave out before the field was finished and on account of the lateness of the season, Mr. Beard was prevented from going into the field again, this field was sowed in clover in the early spring and at the present time there is a splendid stand of clover over the entire limed area of the field, and the few acres in the center have only a fair stand of clover.

There is a definite outline as to where the field was limed, the clover being rank and of good color on the limed land, quickly changing to a very inferior growth on the land that was not limed.

C. A. Mahan to Address Farmers.

Mr. Charles A. Mahan, State Leader of County Agents, will make an address on the Farm Bureau at the Masonic Picnic, in Hardinsburg, Saturday afternoon. Mr. Mahan was an Extension Leader in Ohio for a number of years and did much to put the Farm Bureau on its firm basis, that it occupies now in that State. His address, Saturday will cover the many problems, and possibilities of the Farm Bureau in Breckinridge county and it is hoped that all Farm Bureau members and others interested in the Farm Bureau will be on hands to hear him.

Mr. Mahan will make his address at the picnic grounds at 1:30 p. m.

Directors Meet Saturday.

The Board of Directors of the Breckinridge County Farm Bureau, will meet in special session, Saturday morning to outline the program of work for the ensuing year. Mr. C. A. Mahan, State Leader of County Agents, will be present at the meeting and will assist the Directors in mapping out the program of work, that will be of vast benefit to the agricultural interest of Breckinridge county.

Farmers Conference to Be Held.

Mr. C. A. Mahan and the County Agents will hold conference with Farmers this week, at Kingswood, McQuady and Irvington. These conferences have been arranged for the purpose of ascertaining the various problems facing the community, and to map out a program of community work that should assist in remedying them. These conferences will latter be held throughout the County by the County Agents.

Every farmer should read "The Value of Improved Blood" in stock printed in this issue. It's worth the price of the paper if it is followed out.

Announcement

By Farmers Bank and Trust Company

Under date of March 20, 1917 the five banks of Breckinridge county, at the earnest solicitation of one of the number, entered into a contract whereby it was agreed that the uniform rate of interest to be paid on time deposits should be 3 per cent per annum, until such time as a change should be made by mutual agreement.

This step had the approval of the state bank department, and it has long been the policy of the conservative banks of the state to adhere to this rate. By the best students of finance this was considered to be in the interest of sound and stable banking on the one hand and conducive to the safety of the depositors on the other while at the same time it enabled the banks of the country to extend credit to the borrowing public at reasonable rates of interest, thereby contributing to the business progress and prosperity of the community.

Now in view of the stringency of the money market, temporarily prevailing, the high rates of interest being paid on commercial paper, the fact that some of the leading banks of Louisville have advanced their rates and the further fact that one of the signers of the above agreement has abandoned same without notice to the other signatories, The FARMERS BANK & TRUST CO., announces that on and after August 15, 1920 a rate of FOUR PER CENT per annum will be paid on all time deposits.

This bank as heretofore will always be as liberal and progressive with its patrons and friends as is consistent with sound banking and business integrity. While it does not lay claim to being either the largest or the smallest, the oldest or the youngest, yet take it all in all it is doing business at the same oldstand, adhering to its slogan of "Safety and Service," adjusting itself to changes and if needs be, meeting all legitimate competition, serving the public and GROWING.

NOTICE GIVEN TO
ROAD OVER-SEERS

Now is the time to put in your time on the road. It should have been done before this time, but we have not rushed it by reason of farmers being so busy. All men holding road orders must call out their hands and put in their time. We have been doing work all over the county and have done our best to get the roads graded even though we have experienced great difficulty in getting help. We have assisted all the road over-seers when they come to us as best we could and we expect to assist you when you make known your wants. So, warn out the hands and put in your time. Any over-seer failing to warn his hands out will be subjected to the penalty of the law. Any man failing to put in his time when ordered to by the over-seer will receive the same treatment when reported. I am willing to assist you any way I can. Both working together can make the roads better. The best time to find me in Hardinsburg, is Saturday.
John Bloomer, Co. Road Engineer.

BRIEF LOCAL ITEMS

Peaches seem to be fairly plentiful this season. Quite a few peddlers had their's on the market the last few days.

A large part of the membership of the Baptist Sunday-school enjoyed their annual picnic in Oglesby's grove Thursday. They had a sumptuous basket dinner, and in the afternoon there was a slight shower of rain which seems to have accompanied all the picnics this season.

Mr. Marvin Barbee and daughter, Mrs. Ernest Smith, of Stephensport, were in Cloverport, Saturday. Mr. Barbee was here to learn of a farm which was advertised for sale in The Breckenridge News. Says he is in the market to buy a farm anywhere from Hawesville to Brandenburg.

A picture of Miss Mary E. Benton, daughter of Mr. and Mrs. Carl Benton, of 1305 South First St., Louisville, and who formerly lived here, was in the Courier-Journal, Saturday. Miss Benton is an assistant at the Louisville Free Public Library, and her picture was snapped while she was sampling some of Bullitt county's famous peaches.

The City Coal Company received a carload of coal last week which has been selling for 30c a bushel, the highest that city coal has been. The company has found a ready sale for it even at that price.

For the first time this summer, home-grown watermelons and cantaloupes have been on the local market. Wagon loads of melons were brought over from Tobinsport last week, and they have been selling at reasonable prices. The Kentucky melons will probably be on the market this week.

Mr. Kirk, who has been principal of the Irvington Public School for eight years delivered an excellent address, Sunday morning in the Methodist pulpit in the absence of the pastor Rev. Randolph. His subject was, "Our Debt to the Ministry."

Mr. Kirk was the guest of Mr. and Mrs. John D. Babbage, for the day.

Six members from the Irvington Presbyterian church were here Sunday to worship with the members of the Lucile Memorial church. The rain prevented many from coming who had intended to.

On Sunday evening the Presbyterians and Methodists held their monthly union service. Rev. T. N. Williams delivered a splendid sermon.

Saturday was a busy day in Cloverport. The excessive rainfall gave the farmers a breathing spell and many were taking the day off to come in

town. Trading in the local stores was lively, and several of the out-of-town people remained over for the tent show of the Newport Stock Company, on Saturday night.

Mr. Fredrick C. Gross, of New York City, has been in Cloverport, this week spending part of his time with Mr. L. R. Pate.

Several years ago, Mr. Gross, by mere accident landed in Cloverport off a small river tug. He found employment on the farm of the late R. A. Pate father of L. R. Pate, and later with James Brickley, now of Lake, Ind., and a warm friendship for these two. After working here a while, Mr. Gross joined the Army and spent sixteen years of his life soldiering, part of the time he was in the Philippines and Hawaii Islands. For the last

U. S. TO BUILD 14,400 MILE ROAD

Highway Construction Aggregates in Length 9 Times Distance From N. Y. to San Francisco.

Washington, Aug. 8.—At the present time highway construction in the United States, initiated since the passage of the Federal Good Road Act, aggregated in length, nine times the distance from New York to San Francisco. The Federal Government's share in this huge undertaking was greater than the cost of the Panama Canal.

"The participation of the national Government in highway improvement," says a Department of Agriculture statement, "marks a departure from a policy which had been followed for nearly a century."

"Federal co-operation on an approximately fifty-fifty basis has counted more than any other factor in initiating highway construction that is being carried on under adequate supervision, and in accord with a programmatic co-ordinating local, State and national needs."

"Second only in importance to the size of the present programme is the excellence of the character of the roads being built. Sixty per cent of the total allotment of Federal funds which has been approved to date will be spent for roads of such durable types as bituminous concrete, Portland cement concrete and vitrified brick."

These roads when built will increase by 7,600 miles the total of 14,400 miles of roads of this class which existed in the United States before the Federal-aid road law was passed. But these figures by no means represent the total mileage affected.

"In 1915 the total expenditure for roads and bridges by all the States and local Government was \$267,000,000, while this year the estimated funds available for main road construction are nearly three times that amount, or \$633,000,000."

"In all, Federal funds to the amount of 266,730,000 have been apportioned among forty-eight States without a suggestion of favoritism—so adequate are the provisions for a just apportionment."

William Gilbert, of Stephensport, has been appointed a guard at warehouse No. 18 Rock Springs distillery, Owensboro. He took up his new work last week.

KY. TOBACCO SALES AVERAGE 11.01c.

July Sales Totaled 2,861,145 Pounds At General Average of 11.12c.

Louisville, Ky., Aug. 12.—Sales of 1919 tobacco at Kentucky warehouses in July totaled 2,861,145 pounds at a general average of 11.12c a pound. Old crop sales totaled 373,065 at a 9.98 average. Both kinds averaged 10.01c a pound.

Burley of 1919 sales totaled 703,860 pounds at an average of 12.48c. Of this 89,350 pounds were sold for growers at a 17.68c average, 378,995 were sold for dealers at a 10.96c average and 235,515 figured in resales at a 12.95c average.

Old Burley sales in June totaled 357,495 at an average of 9.93c, and were as follows: 6,093 for growers at 6.78c; 277,170 for dealers at 9.10c and 74,230 resale at 13.27c.

Total 1919 one-sucker and average were 81,745 and 12.66c. Total of old one-sucker and average were 15,570 and 11.20c.

Total 1919 unfired dark and average were 8,945 and 6.99c.

Total 1919 fired dark and average were 2,066,595 and 10.65c. Of the total 1,232,225 pounds were sold for growers at a 11.52c average, 749,000 for dealers at 9.31c and 39,770 figured in resales at a 10.79c average.

NOT MUCH HOPE IN FUTURE FOR RELIEF IN NEWS PRINT SHORTAGE

Leigh Harris, publisher of the Henderson Gleaner, has been to Chicago to consult with other publishers who, like himself are "up against it" for print paper, and this is what he says: "Mr. Carpenter," we said, "what is your advice about print paper. Our mill is behind on its contract tonnage. Should we go on the 'spot' market?"

"Get Paper."

"When will the print paper situation get better?"

"Get Paper."

"The raven had nothing on Willard E. Carpenter when it came to answering our questions at the Chicago conference."

Mr. Carpenter is national chairman of print paper distribution. He gets big papers to release tonnage for little papers to try to keep them in existence.

Mr. Carpenter left us to talk with the business manager of the Hearst papers. We talked with him again at the Illinois Athletic club at dinner. He said:

"Hearst in a Tight Place. They've got Hearst in a tight place. He is on the market for all the print paper he can get at 12 1-2 cents a pound."

When you realize that Hearst and other publishers were getting paper two years ago for two cents a pound you will realize what the newspapers of the country are up against.

The International Paper company has cut its customers to 80 per cent, of last year's tonnage.

Mr. Carpenter said that 2,000 newspapers had been forced out of business by price and shortage and 2,000 more will go before the situation is relieved.

Jason Rogers, of the New York Globe, is organizing capital to build paper mills, but it takes two years and three million dollars to build the smallest kind of a mill.

The Gleaner man acted upon the advice of Mr. Carpenter and "Got Paper"—\$6,000 for a car for immediate delivery. It used to be \$800 a car. The increased expense for Henderson will be \$25,000 if the Gleaner has to continue on the spot market.

The Result

The result of this has been an unanimous decision upon the part of papers to raise subscription rates.

Also to raise advertising rates. Mr. Carpenter informs us that 35 cents, an inch is recognized as the lowest rate that any paper can run advertising. He owns several papers—one at Lincoln, Illinois, with 2,500 circulation. He has already put the 35 cent an inch into effect.

There is no hope for relief by congress. The Underwood bill might have helped but Colby gave Mr. Wilson a bum steer and Wilson killed the bill with a pocket veto.—Owensboro Messenger.

ALL MEAT TO COST MORE THIS WINTER

Master Butchers Hold Convention; Claim Housewives and Farmers Hold Up Prices.

The Master Butchers of America met in their annual Convention in New York City last week and they predicted that all meat would be higher this winter than ever before.

John T. Russell, of Chicago, former president of the convention, who has made a survey of the beef situation over the country, claims the reason for the high cost of meat, is because the great cattle ranges are gone and the farmer is not willing to take the chances on raising beef, and housewives are partly to blame too.

He cited an instance of how the middle West farmers lost money on "feeders" last year. "Feeders," which are known as cattle that are not yet fattened for the market, were bought at 16c a pound, by these farmers who expected to sell them for 24c. When they were ready to sell they struck a slump market, their cattle loans were called, and they were forced to sell at 3 and 4c loss. The packer gave 12 cents, and the farmer had fed the cattle on high priced corn. "There is too much risk to the farmer," said Mr. Russell.

Housewives To Blame Too. "Housewives are, to blame too for high priced meat," Mr. Russell argued. Housekeepers living in apartments will not buy the cheaper cuts of meat because they require more elaborate preparation than is necessary in the case of a sirloin steak and women telephoning their orders necessitates expensive deliveries.

Mr. Russell said he thought the remedy for the situation lies in a new farm loan law which would permit the Government to finance cattle feed at, say 4 per cent.

NEGRO WOMEN COMING TO KENTUCKY TO SPEAK FOR REPUBLICANS.

Washington, D. C., Aug. 13.—The Republican National committee is doing one thing that never has been attempted heretofore. It is organizing a battery of colored women who are to travel through the states of Ohio, Kentucky, Indiana, Illinois and possibly a few other hotly contested regions, and preach Republicanism to the colored voters, especially the colored females. These colored women are being carefully picked for their ability to make speeches.

"It is surprising," declared Clarence Miller, secretary of the Republican National committee, "how many good speakers there are among the colored women."

So far about fifteen colored women have been signed for this campaign.

H. C. L. HITS RAISING OF PIGS AT WESTFIELD.

Westfield, Aug. 10.—The cost of supplies with which to raise porkers to defeat the H. C. L. has risen to such proportions that numbers of the amateur swine raisers here have been forced out of the business this year. Last year there were more than 300 swine permits issued by the Board of Health to induce the raising of pigs in hitherto restricted areas. This year there is only half that number.

"DEEDS, NOT WORDS"

"What this country needs is more production."

"What the country needs," replied Farmer Cornsossel, with a slight trace of irritation, "is less talk about what it needs and more enthusiasm about delivering the goods."

Garner Hill Gladstone, N. J., Sells Rat-Snap, He Says.

"I sell and use RAT-SNAP. Like to look any man in the face and tell it's the best. It's good." People like RAT-SNAP because it "does" kill rats. Petrifies carcass—leaves no smell. Comes in cakes—no mixing to do. Cats or dogs won't touch it. Three size, 35c, 65c, \$1.25. Sold and guaranteed by Conrad Payne & Co., Cloverport, Ky., and B. F. Beard & Co., Hardinsburg, Ky.

1,000,000 LBS. SUGAR RUINED IN EAST RIVER.

Float Hits Rock and Cars Dive Into Water.

New York City, Aug. 12.—Nearly a million pounds of refined sugar destined to relieve a shortage in the West mixed with the waters of the East River yesterday off the piers of the National Sugar Refining Company, at Pidgeon and Front streets, Long Island City. The sugar, valued at 22 cents a pound wholesale, was loaded in thirteen freight cars on a float for transfer to a Brooklyn shipping point.

The float was being towed from the sugar company piers when it struck a rock, the towing hawser broke and the float stuck its nose under the water. Four of the cars slid off into deep water. The nine others started to dive in, but did not go entirely under the surface. Enough water was shipped to ruin the cargo.

LOUISVILLE FIRM ASK FORD TO TAKE OVER CAMP TAYLOR AS INDUSTRIAL CENTER.

A member of the Consolidated Realty Company, Louisville, Mr. Henry M. Johnson, has written to Henry Ford, Detroit automobile magnate, appealing to him to take over Camp Taylor as an industrial center when it is disposed of by the Government.

Ford has recently taken over vast coal fields in Harlan county Kentucky, and acquired control of the Detroit, Toledo and Ironton railroad, so it may be possible that he is planning to divide his business between a Ford industry and some modern industry in this state.

SICK 17 YEARS, RELIEVED BY TAKING NO. 40 FOR THE BLOOD

"For 17 years I was troubled with dropsy and bad blood. I took every kind of medicine that was recommended to me, without benefit, until I got a bottle of Number 40 and it helped me so much that I got two more bottles and since taking the second bottle, I am feeling fine. I wish to recommend Number 40 to anyone needing a blood medicine as I believe it is as good as recommended. Mrs. Jane Goodwin, Gideon, Mo." Number 40 is demanded in depraved conditions of the system, especially of the blood and general health. In chronic enlargement of

the spleen or liver. In chronic malarial poisoning. Removes the causes of disease by stimulating the removal of waste, thus encouraging nutrition. Employed with success in blood troubles, chronic rheumatism, catarrh, eczema, sores, ulcers and skin diseases. Made by J. C. Mendenhall, Evansville, Ind., 40 years a druggist. The best druggist in your neighborhood sells Number 40, but if it happens that he does not, send direct to J. C. Mendenhall Medicine Company, Evansville, Indiana, and receive it delivered to you at \$1.25 per bottle, six bottles for \$7.00.

An Addition to Our Line

WATERLOO BOY
The Original Kerosene Tractor

In offering to you the Waterloo Boy, the Original Kerosene Burning Tractor, we believe we have selected the most practical, economical and dependable farm tractor on the market.

Points of Merit on Which Our Judgment Is Based:

PAST PERFORMANCE.. The Waterloo Boy has been a success on farms for five years. In no way is it an experiment.

ECONOMICAL.. It is a three plow tractor—most economical and practical size to use—burns kerosene perfectly without destroying lubricating oil. Its special, patented inbuilt manifold converts every drop of kerosene into pure gas—cylinders are not carbonized—spark plugs are not fouled. The perfect burning of kerosene saves the owner of the Waterloo Boy many dollars every year in cost of fuel and care of motor.

POWERFUL.. The two cylinders, with big bore and long stroke, furnish a guaranteed power of 12 H. P. at the draw bar and 25 H. P. at the belt, with ample reserve for emergencies. The Waterloo Boy pulls three plows under almost any field condition. Hyatt roller bearings at all important bearing points conserve full power. Weight of the tractor is sufficient to insure good traction for drive wheels.

SIMPLE.. Every part is easy to get at and easy to adjust or repair. It doesn't require a tractor expert to keep the Waterloo Boy in good working order. The crank case cover, the inspection plate, the upper half of gear case can all be removed for the purpose of inspection or repair—the operator can work from a standing position.

DURABLE.. Its heat-treated steel cut gears; its force and eight feed oiling system; its 11 sets of Hyatt Roller bearings at all important bearing points and its simple, powerful two-cylinder motor combined with uniformly high grade construction throughout, result in a tractor that has given and will give many years of dependable and economical service.

FOR ALL FARM WORK.. You can depend upon the Waterloo Boy in all farm power work, up to its high rated capacity. It is just as satisfactory in operating belt machines—threshers, shellers, ensilage cutters, hay balers, etc.—as it is in pulling tractor implements of all kinds.

We Want You to See the Waterloo Boy—Come In the Next Time You Are in Town

URGE SPEED ON
OHIO RIVER ROUTE

Judges From Nearly all Counties With Judge Newman Visit State Highway Commission.

Frankfort, Ky., Aug. 10.—Judges of nearly every county on the Ohio river road, headed by President Newman of the association promoting the project, appeared before the State Highway commission today, asking that construction be pushed as rapidly as possible.

One of their anxieties was over the private contributions, much of it in the form of notes and conditional upon the work being done. Outside Jefferson county about \$750,000 has been raised.

Joe S. Boggs, state highway engineer, said the contracts will be let just as soon as plans can be completed. Contracts for Jefferson and Meade county already have been let and the other sections are in varying degree of completion, the route comprises 245 miles with numerous bridges as well as road plans to be made before bids can be asked. It is probable that much of the work will be under contract before October 1. It will require about three years to complete the road

from Milton to Paducah in its entirety.

The commission ordered contracts let for the following federal aid projects:

Knox, 11.7 miles, grading, Barbourville to Bell line; Grant, one mile in Williamson and 6.7 miles north from city; Webster, Dixie Bee Line, 10.4 miles grading Muhlenburg, Central Highway 7.5 miles state projects; Morgan, 12 miles on West Liberty-Frenchburg road; Lee, 4.4 miles, Beattyville-Irvin road.

The commission accepted a plan of \$300,000 from Clay county for a state project, 30; Richmond to Pineville, through Clay; \$150,000 from Hopkins for project 19; Dixie Bee Line, with federal aid; \$125,000 from Lawrence for the Mayo Trail, and \$110,000 from Lee county for project 29, east from Richmond.

The commission expects to work 500 or 600 convicts on heavy construction next year and directed Mr. Boggs to advertise for the necessary machinery.

COMMISSIONER'S SALE

Breckinridge Circuit Court, Kentucky.

O. R. Storms, etc., Plaintiff.

Against

E. H. Kiper et al., Defendant.

Equity No. 4182

By virtue of a Judgement and Order of Sale of Breckinridge Circuit Court rendered at the May term thereof, 1920, in the above cause, for the sale (and said judgement was supplemented, describing the lands as set up herein at the Special July Term of said court, which was held on the 5th and 6th days of July 1920), and all costs herein, I shall proceed to offer for sale at the Court-House door in Hardinsburg, to the highest bidder, at **PUBLIC AUCTION, on Monday the 23rd day of August, 1920, at one o'clock p. m.,** or thereabout (being County Court day), upon a credit six months the following described property, to-wit: The Home Tract: Beginning at a black oak in the original Harold line; thence from said black oak and with the Leitchfield and Hardinsburg road easterly to the Peter Cave Bridge at Rough Creek; thence down said creek to a stone corner to the original line on bank of said creek, thence up the hill and with the original line to the said black oak, the beginning corner on said road. This tract which is sold by the boundary and not the acre is supposed to contain 160 acres, be the same more or less as the survey may show.

Tract No. 2

Beginning at a black oak tree at a sandy point in the original line and on the Leitchfield and Hardinsburg road, thence with said road easterly to the Peter Cave Bridge at Rough Creek, thence up and with said Rough Creek to the mouth of Laurel Branch, thence up said branch to a beech, thence with the Harold line property now owned by Will Howard to said black oak, the beginning corner, containing by estimate 185 acres, more or less.

The purchaser with approved surety or securities, must execute bond, bearing legal interest from the day of sale until paid; and having the force and effect of a judgement. Lien retained to secure payment of purchase money. Bidders will be prepared to comply promptly with these terms.

"SET ME RIGHT TWO YEARS AGO"

Louisville Man Says He Has Had Splendid Health Since Tanlac Ended His Troubles

"You may put me down as one Louisville man who will always praise Tanlac, for it set me right two years ago and has kept me in fine shape ever since," said W. T. Carmen, 442 South First street, Louisville, Ky., in conversation with a special Tanlac representative recently.

"Before I got Tanlac," he continued, "I had suffered from indigestion for twenty years, and during that time I had many acute attacks that rendered me unfit for work for several weeks at a time. My stomach seemed to be weak and upset nearly all the time, and after every meal I suffered from a sour gas that formed on my stomach. Then several years ago I was taken down with a spell of typhoid fever that left me in a badly run-down condition, and my stomach in a worse shape than ever. My liver became sluggish, I was constipated all the time and had that tired, worn-out feeling. My joints were stiff and every bone in my body seemed to ache, and I also suffered from bronchial trouble.

"Following my usual custom of trying everything I heard of, when I saw Tanlac advertised I bought a bottle, and after taking about half of the first bottle I knew I had at last struck the right medicine, for there was a considerable improvement in my condition. I stuck right to Tanlac until my troubles completely left me and I have felt like a new man. Since that time two years now, I have made it a rule to take a bottle of Tanlac about every six months to tone up my system, and it keeps me in fine shape. I eat just anything I want at any time and never have an ache or a pain. So I can testify to both the immediate and lasting results that come from Tanlac, and I am glad to make a public statement for what it may be worth to others who are needing such a medicine."

Tanlac is sold in Cloverport by Wedding's Drug Store, in Kirk by Mattingly Bros., in Addison by L. D. Addison, and in Ammons by Wm. H. Dutschke.—Advertisement.

PROHIBITIONS TO MAKE AIR CAMPAIGN

Nominees Are Notified of Their Selection.

Germantown, Ohio, Aug. 11.—Before an enthusiastic crowd of neighbors, admirers and party adherents that overflowed the athletic field at Miami Military Institute here to-night the Rev. Aaron S. Watkins, standard bearer of the Prohibition party, and D. Leigh Colvin, his running mate, formally accepted their nominations, both asserting enforcement of prohibition laws, and especially the Volstead act, are vital issues of the campaign.

"To us the supreme question of the year is not equal suffrage, the League of Nations, labor, Mexico or Armenia, nor any of the minor questions on which all agree, but the entire extinction of the liquor traffic," said Mr. Watkins in his acceptance speech. "Notwithstanding that we have prohibition in the Constitution, both political party conventions have refused to assume the responsibility for the maintenance of the Volstead enforcement law, without which the constitutional amendment is impotent," declared Mr. Colvin.

The candidates will carry the gospel of their party into every section of the country by airplane. Decision for the air campaign was reached late this afternoon by the national executive committee after an all day session.

LEGISLATURE MAKES CHANGES IN GAME LAW.

The last session of the Legislature changed the game laws, especially relating to the time of hunting doves and squirrels. The open season for hunting doves is from September 1, to December 16, and fifteen doves is as many as may be killed in one day. The squirrel open season is from July 1, to December 16.

The quail open season remains the same, from November 15, to January 1, but only twelve quails may be killed in each day.

Fines upon conviction of violating of any provisions of the new law range from \$15 to \$30.

EXPRESS RATES TO BE INCREASED 12 1-2 PER CENT

Washington, Aug. 13.—Granting authority to increase express rates 12 1-2 per cent by the American Railway Express company, today, the Interstate Commerce commission made plain the decision does not take into consideration the recent railroad labor or board award of increased wages of approximately \$43,000,000 to the express company employees. It is expected the company soon will make application for an additional advance of rates to meet the new wage scales. The increase authorized today will add \$35,500,000 to the annual income of the company. The company asked 25 16-100 per cent increase.

HIGH FREIGHT RATES ADD LITTLE TO LIVING COST

Southern Railway Prepares Tabulation Showing Only Few Cents a Pound at Most Is Added.

Washington, Aug. 10.—Increased freight rates recently authorized by the Interstate Commerce Commission and soon to be made effective will mean the addition at most of but a few cents a pound on most articles of food and clothing that go into the cost of living, according to tabulations prepared by experts of the Southern Railway. The tabulation was prepared for Southern territory, but it is applicable to any other section. It was prepared in answer to statements frequently appearing that billions would be added to the cost of living.

Some of the tabulations worked by the rate experts follows:

"The rate on shoes from Boston to Atlanta is now \$1.64 per 100 pounds, making the transportation charge of the packing weight three pounds, approximately five cents. The new rate will be \$2.18 1-2 per 100 pounds, making the transportation charge on the same pair shoes approximately 6 2-3 cents. Every one knows that the pair of shoes which formerly sold for \$7 is now selling around \$15.

New York to New Orleans.

"Shirts are shipped from New York to New Orleans by freight for \$1.54 per 100 pounds, making the transportation charge on a five ounce shirt about half a cent. The new rate will be \$2.05 1-2 per 100 pounds, making the charge on the same five ounce shirt about two-thirds of one cent. The old \$1.50 shirt is selling for \$3 and up.

"Clothing manufactured in Chicago can now be shipped to Jacksonville for \$1.83 per 100 pounds or less than 11 cents for a suit which with its share of the packing weighs 6 pounds. The new rate will be \$2.38 1-2 per 100 pounds or about 14 cents on the 6 pound ready made, which formerly was offered for \$30, but now cannot be taken home for less than \$60.

"Coming to articles of food, the rate on fresh beef from Chicago to Birmingham is now 82 cents per 100 pounds, less than 1 cent per pound. The new rate will be \$1.04 1-2 per 100 pounds of slightly more than 1 cent per pound. Beef that formerly sold for 20 cents per pound has been bringing 35 cents.

"Sugar can now be shipped from New Orleans to Greensboro, N. C., for 35 cents per 100 pounds or just about half a cent per pound. The new rate will be 60 cents per 100 pounds, still less than three-fourths of a cent per pound. And sugar which formerly sold for 5 cents per pound has been selling above 30 cents per pound.

"These illustrations which are of articles and commodities taken at random, may be considered as fairly representative of the addition to the transportation cost of articles used in the South which will result from the increase in rates. Similar illustrations could be made on almost every article which, being shipped and sold by the ton, will show a relatively higher transportation cost in proportion to its value."

CORN, OATS AND POTATOES SHOW BIG INCREASE

Slight Decrease Reported in Ky's Tobacco Crop. Corn Production Estimated \$98,-941,000 Bushels.

Louisville, Aug. 13, 1920.—Considerable increases in the estimates of production of corn, oats and potatoes in Kentucky, compared to July 1, estimates, a slight increase in the estimate of the wheat crop in Kentucky, and a slight decrease in the State's tobacco prospects, are the features of the monthly crop report issued today at Louisville and Frankfort by the U. S. Bureau of Crop Estimates in co-operation with State Commissioner of Agriculture W. C. Hafma. Tobacco shows a slight reduction from July estimates because of rather poor condition in some sections, but as there is a big acreage in the Burley belt which partly makes up for the reduced acreage in Western Kentucky and both sections can yet make a full normal yield if given favorable weather, the estimate of tobacco production is not greatly reduced. The United States total tobacco crop is considerably larger than last year.

Fine Corn Production.
Probable corn production in Kentucky is estimated at 96,941,000 bushels compared to a July 1, estimate of 86,170,000 and a crop last year of 82,500,000 bushels; wheat this month is estimated at 6,304,000 bushels compared to a July 1, estimate of 6,275,000 bushels and a production of 12,029,000 bushels last year; potatoes 6,353,000 bushels compared to prospects July 1, for 5,971,000 bushels and a crop last year of 5,040,000 bushels; and tobacco 431,640,000 pounds compared to a July 1, estimate of 437,580,000 pounds and last year's production of 456,500,000 pounds. This estimate on tobacco may be increased or decreased later, however, depending on favorable or unfavorable weather.

Good Crop of Fruit.
Rye production in Kentucky this season is estimated at 636,000 bushels compared to 744,000 bushels last year; oats 11,615,000 bushels compared to 9,900,000 bushels last year; barley 112,000 bushels compared to 100,000 bushels last year; and sweet potatoes 1,638,000 bushels compared to 1,680,000 bushels last year. Fruit is a good crop in Kentucky as a whole, apples being estimated at 5,063,000 bushels and peaches 1,526,000 bushels.
